INTRODUCTION

Our aim is to encourage people in the local community to enjoy and learn together gardening skills and knowledge of plants. We welcome gardeners of all levels of experience. As a Society, we welcome new members. A full programme of our meetings is printed later in the Schedule. Subscriptions for the year are £10.00 per household and £7.50 for single membership. Subscriptions are due on the date of the January AGM.

The Society encourages all members to participate in the Shows.

We would particularly like to draw your attention to the Novice Classes. These are especially to encourage young people and those gardeners who are new to growing and showing. If you need any cultural or show advice then please ask for help during the season.

About Chorley in Bloom

Chorley in Bloom was formed in 2014 by a small number of interested local residents who wanted to help make Chorley a better place in which to live. Recognising that local authority budgets are constantly under pressure, Chorley in Bloom seeks to complement Chorley Council's efforts by generating revenue through local fund-raising activities, sponsorship, donations and grants. These funds are then used to undertake community projects.

Chorley in Bloom's main objectives:

- To help promote Chorley as the Best Blooming Town in Lancashire.
- To work with the community and the local authority to beautify and brighten up Chorley.
- To interface with local businesses, schools, churches and private individuals to obtain their support whether in cash or in kind.
- To participate in regional and national competitions.

Come And Experience An Eye Test With Sutcliffes Opticians

In the UK, most eye exam appointments last 20 minutes. Even though that may be enough time for an optometrist to take a look at your eyes, it doesn't leave much opportunity to talk about specific concerns or needs you might have.

At Sutcliffes, we want to get to know you and your eye care needs. That's why our eye exams are a full 40 minutes. We take the time to ask about your preferences, how you use your eyes, what type of work you do and more. This way, we can tailor our recommendations specifically for you. When you only have 20 minutes with an expert, it's difficult to get all of your questions answered and feel satisfied. When you're given 40 minutes, this allows for a much more thorough discussion.

If you are on the search for an optician and the best possible eyewear, then this is the right place for you. Just as every face is different, this is also the case with optician practices. When you are searching for the right optician for you, you will more than likely come across very similar options. However, not every eyewear experience is the same.

At Sutcliffes Opticians our mission is to provide world-class customer service and deliver an incomparable eyewear experience. The best reward is seeing our patients smile and how happy they are after we help them choose their perfect eyewear.

Call or pop in to make your appointment. We look forward to seeing you!

From all the Team at Sutcliffes Opticians.
